The Right Honourable Sir JOHN HENRY DE VILLIERS, K.C.M.G., Chief Justice, and the other the Judges of the Honourable the Supreme Court of the Colony of the Cape of Good Hope, do hereby make known :—

To MTENJASE MAGERU (born Nyangana), married in community of property to IZAK MAGERU, late of Mfinci's Ridge, Blikana, District of Herschel, at present supposed to be in Johannesburg.

THAT whereas IZAK MAGERU, of Mfinci's Ridge, Blikana, District of Herschel, Cape Colony, did, on the 1st day of May, 1903, petition this Honourable Court for leave to sue by edict his wife, MTENJASE MAGERU (born Nyangana), lately of the Cape Colony, but last heard of at Johannesburg, Transvaal, for a dissolution of the bonds of marriage subsisting between them, by reason of the Defendant's adultery during the years 1883 and 1895 with some person or persons unknown to him; and of which carnal intercourse the Defendant has been delivered of a child in or about the year 1883, of which Plaintiff is not the father, as Defendant deserted him in the year 1880, since which date she has not returned to him, and during which time he has not seen and has not had access to his wife.

Now, this Court, having taken the prayer of the said IZAK MAGERU into consideration and granted the same accordingly, by these presents doth summon the said MTENJASE MAGERU (born Nyangana) that she cause an appearance to be entered on or before the 1st day of August, 1903, before the said Court either in person or by proxy, to show cause (if any) why a decree of divorce shall not be granted by reason of her wilful and malicious adultery with persons unknown; and why she shall not be declared to have forfeited her half share in the community of property existing between them, by virtue of their marriage in community.

Thus done and granted in the Supreme Court of the Colony of the Cape of Good Hope, at Cape Town, on the 4th day of June, 1903.

Acting Assistant Registrar of the Supreme Court.

Plaintiff,

and,

MTENJASE MAGERU (born Nyangana),

Defendant.

Plaintiff's Intendit'.

1. Plaintiff resides at Mfinci's Ridge, Blikana, in the District of Herschel. Defendant is believed to reside in Johannesburg and has been summoned by Edictal Citation.

2. Plaintiff was married to Defendant on the 27th May, 1873, at Wittebergen in the said District of Herschel in community of property. Their marriage is still of full legal force and effect.

3. There are four children of the marriage all majors.

4. Plaintiff and his wife the said Defendant lived together in this Colony after their marriage until the year 1880 when the Defendant without legal cause or excuse left the Plaintiff and has not since returned to him.

5. Defendant has committed adultery with divers persons at divers times and particularly, in the year 1883, with some person to the Plaintiff unknown by reason of which adultery the Defendant was in the said year 1883 and in the Orange Free State delivered of a child of whom the Plaintiff was not the father, and particularly also in the year 1895, with a certain Zulu in Johannesburg.

4. Every nursery shall be inspected at least twice a year by an officer appointed for the purpose by the Minister; but unless deemed absolutely necessary by the Minister, no inspection shall be made during such period, between 1st May and 1st October, as shall be fixed for the different areas by Proclamation by the Governor.

5. It shall be the duty of the inspecting officer to declare under quarantine such part of any nursery as lies within eight (8) yards of any tree, shrub or plant which he finds infested with any insect pest or plant disease, or within twelve (12) yards if such infested tree, shrub or plant is over ten (10) feet in height; and such area shall be held and deemed to be under quarantine accordingly.

Any owner or occupier of a nursery having his nursery or any part thereof thus placed under quarantine may upon application to the Minister have his nursery examined free of charge at any time prior to the next regular inspection, in order that it may be determined whether or not he has been successful in eradicating the insect pest or plant disease, provided that the owner or occupier shall have certified that a period of six weeks has elapsed since the last application of a remedy. If additional examinations are desired, they will be made under the same conditions but at the expense of the owner or occupier; and any person who shall give a false certificate under this section shall be deemed to be guilty of a contravention of this Act.

No. 43*. 1903.

* Republished with Amendment.

Surveyor-General's Office, Cape Town,
12th May, 1903.

IN terms of Section 4, Act 26 of 1891, as re-enacted by Act No. 18 of 1897, it is hereby notified that the following Pieces of Crown Land, will be offered for Lease, by Public Auction, in front of the Offices of the respective Civil Commissioners, at 10 o'clock a.m., on the dates specified, subject to the Conditions and Stipulations hereinafter contained and further to such conditions as may be declared on the day of Sale.

Kenhardt, on Tuesday, 11th August, 1903.
Calvinia on Friday, 17th July, 1903.
Namaqualand (at Springbokfontein), on Monday, 3rd August, 1903.
Clanwilliam, on Monday, 27th July, 1903.
Van Rhynsdorp, on Monday, 27th July, 1903.

The land will be let on Lease for any term not less than one year, and not exceeding five years, to the highest bidder.

The following are the General Conditions of all such Leases:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year, the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties: provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.

2. Government Land Surveyors employed in the survey of Crown or other lands, with their assistants and servants, shall have the right of access at any time to any part of the land leased for professional purposes, and the right of occupying any part of the land and grazing and watering their cattle or horses on all pastures and at all waters.

3. All roads running over the land leased may be used by the public as cattle thoroughfares (trekpaths) to the extent of 200 yards on each side of such road.

4. The public travelling shall have the right of outspanning along any road running over the land so leased.

5. The right of searching and mining for ores, metals, minerals, or precious stones is reserved to the Government or to any person authorised by it, save in so far as such right may limit the rights and privileges of the said Lessees in respect of precious stones and minerals, in manner provided by any Act in that behalf.

6. The Government does not undertake to point out any beacons. The description of each Lot will be given on the day of Sale of the Leases, and the Lessee will thereupon be expected to find the extent leased by him.

7. The Lessee shall not be at liberty to cut down timber, trees, underwood, or brushwood, except such as shall be reasonably necessary for his own use, in and upon the lands leased by him.

8. In the event of the Lessee making improvements on the land and on the expiration of his lease the land being either sold or again leased, the value of the said improvements shall be refunded by the purchaser or new Lessee (as the case may be), not being the improver, in cash on the day of the auction.

9. Should such new purchaser or Lessee (as the case may be) fail to make the refund referred to in the preceding section, on the conclusion of the auction, the sale or lease shall be *ipso facto* null and void, and the land shall be immediately again offered for lease.

10. The value of the said improvements, if less than £50, shall not be recoverable in any way.

11. The Lessee shall be bound to notify the Civil Commissioner of the Division not less than three months before the date of the expiration of the lease of the nature and estimated value of the improvements; such statement to be accompanied by a certificate in support of the assessment, from the nearest resident Field-cornet after an inspection by him. The expenses of such Field-cornet at the Government tariff rates shall be paid by the Lessee before

12. In the event of no such report from the Lessee being his lease expires.
received, it will be taken for granted that no improvements of the value of £50 have been effected.

13. Should the land when put up to auction fail to find a purchaser or Lessee (as the case may be), the improvements thereon shall become the property of the Government without compensation.

14. The Lessee shall not transfer the Lease, nor sub-let the land or any portion of it, or any buildings or erections thereon, without the written sanction of the Government first obtained.

15. The Lessee shall wholly and absolutely forfeit his Lease, together with all improvements made, upon the breach of any condition binding him.

16. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive, or to cancel the Lease, as may seem to it equitable under the circumstances.

17. The occupation of land under this Lease shall not be held to be *bona fide* occupation under the provisions and for the purposes of Section 20 of Act No. 40 of 1895.

18. *The lessee shall not have the right to kill, catch, capture, hunt or wound, any wild ostriches, or take, remove, interfere with or disturb the eggs, except under a licence issued under Act 33 of 1889 or such similar Act.*

Other conditions may be declared on the day of Sale.

The Stamps required by Act No. 20 of 1884, to be affixed to the Contracts of Lease, will be furnished by the Government free of charge to the Lessee.

MAX JURISCH,
Surveyor-General.

The Lot will be put up at the upset price fixed, and the highest bidder who shall have offered not less than such upset price shall be declared the purchaser, and such purchaser shall have the option of paying either the whole or a part of the purchase money on the day of sale: Provided:

(i) That if no payment be made on the day of sale one-tenth of the purchase price shall be paid at six and one-tenth at twelve months from the day of sale.

(ii) That if less than one-tenth of the purchase price be paid on the day of sale, the balance of such one-tenth shall be paid at the expiration of six months, and the remaining one-tenth at the expiration of twelve months from the day of sale.

(iii) That if the amount paid on the day of sale be one-tenth or any sum between one-tenth and one-fifth of the purchase price, the balance of one-fifth of the purchase price shall be paid at the expiration of twelve months from the day of sale.

(iv) In case the purchase money is less than (£25) twenty-five pounds, the whole amount shall be paid in cash, or in equal instalments extending over a period of three years.

Interest on the instalments above mentioned shall be paid at the rate of four per centum per annum; and the payment of the instalments, together with the interest thereon, shall be secured on the day of sale by two good and sufficient sureties to the satisfaction of the Civil Commissioner, which sureties will bind themselves in regard to such payment as sureties *in solidum* and co-principal debtors, renouncing the exceptions of excussion and division.

If the purchaser or his sureties fail, or are unable to make the necessary payments of purchase money as above within the stipulated time, it shall be competent for the Government to cancel the sale, and all payments already made in respect of such sale shall be forfeited to the Government.

The expense of Survey on the Lot and of the Title Deed (viz., 12s. 3d.) shall be paid to the Civil Commissioner, or other duly authorised person in that behalf, on the day of sale.

In the event of the purchase price being £25 or more the purchaser shall be bound to pass a mortgage bond, bearing interest at the rate of four per centum per annum, in favour of the Government for four-fifths of the purchase price, unless he shall have paid on the day of sale more than one-fifth thereof, in which case the amount of the bond shall be for the balance of the purchase price, the purchaser having the right to pay off the amount of the bond or any portion thereof, not being less than fifty pounds at any time.

If the purchaser be desirous of holding the balance of the purchase money on mortgage as above, he will be required to pass the Bond within thirteen (13) calendar months from the day of sale, failing which, a fine of one shilling will be imposed for every day allowed to pass beyond it, up to eighteen months from the date of sale, after which, should such failure still continue, the balance of the purchase money, with interest thereon, and the amount of the fine, if any, so imposed, shall forthwith become due and payable, without further notice, and if not paid within one month after the date of judgment, the sale shall become null and void, and payments already made shall be forfeited to the Government.

That the purchaser shall be bound to properly fence in the land hereby sold; but shall on no account be allowed to use barbed wire for that purpose; and shall further be bound to make a crossing, to the satisfaction of Government, at the spot marked "crossing" on the diagram, which he shall be required to keep in an efficient state of repair.

The Diagram and Conditions of Sale may be seen at the Surveyor-General's Office, Cape Town, and at the Office of the Civil Commissioner of Queenstown.

CAPE OF GOOD HOPE.

ACT

TO

Authorise the New Cape Central Railway, Ld., to extend its Railway from Riversdale to Mossel Bay or to a point near Mossel Bay, and to have through traffic over a railway in course of construction between Mossel Bay and Oudtshoorn.

[Assented to 13th July, 1903.]

WHEREAS the Cape Central Railways Ld. did by authority of Act 16 of 1883 construct, maintain and work a railway from Worcester *via* Robertson to Roodewal now called Ashton and whereas the New Cape Central Railway Ld. did thereafter acquire the whole undertaking of the said Cape Central Railways Ld. and did by virtue of Act 37 of 1894, construct a railway from Ashton to Swellendam which railways are now being maintained and worked by the said New Cape Central Railway Ld. and whereas the said Company under and by virtue of Act 42 of 1898 was authorised and empowered to construct, work and maintain a railway from Swellendam to Riversdale and whereas it is expedient that the said railway should be further extended from Riversdale to Mossel Bay or to a point near Mossel Bay and that Government be authorised to pay towards the construction of such extension a sum of money as a subsidy and whereas the said Company is willing to construct, maintain and work a railway from Riversdale to a point near Mossel Bay provided that a subsidy as above mentioned is paid by Government, and whereas it is desirable that the said Company should have power on certain conditions to have through traffic over the railway now in course of construction between Mossel Bay and Oudtshoorn.

Be it enacted by the Governor of the Cape of Good Hope with the advice and consent of the Legislative Council and House of Assembly thereof as follows:

1. The Company styled the New Cape Central Railway Ld. shall be and is hereby authorised and empowered to construct, equip, maintain and work a railway on a gauge of not less than three feet six inches wide with no gradient steeper than one in forty and with no curve of a radius less than 7 chains except in difficult country where the Company shall have the right to adopt curves of a radius less than 7 but not less than 5 chains, provided that the total length throughout the railway authorised by this Act of curves less than 6 chains shall not exceed two miles and that the total length of all curves less than 7 chains including curves less than 6 chains shall not exceed 4 miles save with the approval of the Government, and provided that the Government shall not object to the places where the Company shall propose to adopt curves of a radius less than 5 chains. The said Railway shall commence from the terminus of the said Company's railway at or near Riversdale and shall continue to Mossel Bay or to a point near Mossel Bay as shown by the plans duly lodged with the Clerk of the House of Assembly save and except in so far as the said plans may be inconsistent with any of the provisions of this Act, provided that the said railway shall be completed within a period of three years after the passing of this Act.

2. The said railway shall commence at the terminus of the railway from Swellendam to Riversdale and thence proceed across or over or near the following farms and places: [illegible] Riversdale Wagendrift, [illegible] Zeekoe Rivier, Over de Klipp Palmiet Rivier aan de Hoogekraal, [illegible] Hoogekraal and Brakkefontein, Kloss Kloof Grove, Sewaans Kraal, [illegible] Hoogte Vlakte aan de Klipplaats, [illegible] Vlei, Onderpleten, [illegible] Onderpleten, Aan gelegen, Berg [illegible] Brakfontein, Wolgevonden, Fonteintjes, Hartebeest Kuil, [illegible] Rondekraal, De Klipfontein, Werkdorp formerly

The said Company shall be authorised and empowered to make a junction with the railway constructed or to be constructed between Mossel Bay and Oudtshoorn at a point to be approved by the Colonial Government and shall be entitled to have through traffic conveyed over the said railway between the junction and Mossel Bay and between the junction and Oudtshoorn in such manner and upon such terms as shall be mutually agreed upon or failing such agreement as shall be settled by arbitration in terms of the Arbitration Acts of this Colony. In the event of the Government at any time deciding to construct a line of railway through the Gouritz River Gorge in the direction of Calitzdorp and Oudtshoorn, commencing from a point on the line provided for in this Act, between the Gouritz River Bridge and the junction with the Mossel Bay-George Line then the said Government shall have running powers for through traffic over such portion of the line which lies between the point of junction with the Mossel Bay-George Line and the point of departure for the Calitzdorp-Oudtshoorn Line similar to the running powers conferred upon the Government by virtue of Clause 11, Schedule I of Act 19 of 1900 in the case of the Mossel Bay-George-Oudtshoorn Line.

3. The Company may by any person thereto duly authorised in writing, enter upon any land within the limits of deviation as shewn in the said plan for the purpose of surveying the same and of probing and boring in order to ascertain the nature of the soil and of setting out the line of railway, making full compensation to the occupier of the said land for any damage thereby occasioned, the same to be recoverable by action brought in any competent Court within three months from the date when such damage is alleged to have been committed.

4. The Company may with the consent of Government enter upon and take possession of and hold, and retain for the purposes of this Act free of charge, so much of any Crown land as shall be required for the construction and maintenance of the said railway or any other purposes relating to the execution of this Act, and also with the like consent may enter upon any Crown land lying convenient to the said railway and dig for, excavate, and carry away all stones, clay and other material required for the purposes of the said railway free of charge: provided that nothing in this Act contained shall establish any servitude in favour of the said Company upon any such land not being land reasonably required for the actual construction and working of the said railway which may hereafter be sold or leased by the Colonial Government to any Purchaser or Lessee thereof.

5. For the purposes of the said railway the Company is hereby invested with all and singular the legal rights, if any, belonging to the Colonial Government in respect of the taking of any land and the raising and carrying away of materials for making and repairing public roads, whether such rights have been preserved to the said Government by the Proclamation of Sir John Francis Cradock, bearing date the 6th day of August, 1813, permitting the conversion of lands on loan into places of perpetual quitrent or have been created by express stipulation or condition in any grant of freehold property or exist in any other way: provided that no land be taken or materials be raised or carried away without previous notice to the proprietor thereof: and provided that the extent of land taken for the railway under the provisions of this Act shall not exceed in width fifty feet for the formation line and sufficient additional width required for the slopes, drainage, stations, approach roads and all other works, matters and things which may be requisite or necessary for the efficient construction, maintenance or working of the said railway.

6. If the Company shall for the purposes of the said railway require to acquire and use any land or to dig, get or carry away any materials from any land belonging to any person who may not be bound by law to allow such Company exercising the powers of the said Government, so to do without requiring any recompense or payment, and who may think proper to require compensation from the said Company, or if the Company shall need to acquire or use any land or to take any material from any land that the Company in the exercise of such powers as aforesaid may have a legal right to acquire or use, but which has been improved by cultivation, irrigation, or otherwise, the amount of compensation to be paid to the proprietor shall in the absence of any Agreement be settled by arbitration.

7. Whenever the Company shall expropriate any such land as in the preceding section mentioned, for which compensation shall have to be paid in terms of the said section, the owner of the said land so expropriated shall be bound and obliged to pass transfer to the said Company of such land.

8. Nothing in this Act contained shall prevent any streets or roads hereinafter to be constructed under lawful authority, from being made and carried across the said railway at all requisite and convenient places: provided that as little damage and inconvenience as possible shall be caused to the said Railway by such crossings.

9. At all places where the said railway or any deviation thereof shall intersect or cross the line of any street or road, it shall be lawful for the Company to make and carry the said railway across such street or road either by means of a level crossing, or by means of a convenient or sufficient bridge or viaduct over or under the said street or road, and the Company shall be bound to make all such cuttings, embankments and approaches with all such culverts, drains, and all such repairs as may be necessary to make good the street or road across or over or under the said Railway at gradients not exceeding one foot in twenty; and shall also be bound to maintain and keep in efficient repair all such crossings, bridges, viaducts, cuttings and embankments, approaches, culverts and drains as aforesaid.

10. The Company shall be required to construct the said railway with material equal in quality to that employed upon the railways constructed by the Government, and to arrange for the workmanship to be equally well executed, and all materials shipped in Europe or America, shall, before shipment, be subject to the inspection and approval of an Engineer, to be appointed by the Company subject to the approval of the Government.

11. For the purposes of the said railway, the Company is hereby authorised to carry the lines of rails over the bridge known as the Gouritz River Bridge: provided that the rails are so laid as not unduly to interfere with the ordinary road traffic; and provided that the Company shall pay to the Government for the use of the said bridge rent at the rate of £500 per annum, as well as half the cost incurred by the Government in the maintenance thereof: and provided that the speed of trains passing over the said bridge shall be limited to eight miles per hour, and that no reversal of engines, application of brake power, nor stoppage of trains shall be permitted on any part of the said bridge or abutments except to avoid accidents, and provided that the arrangements to be made by the Company for the regulation and protection of traffic over the said bridge, and for the working of such shall be subject to the approval of the Government; and provided further that the Government shall not be liable for any loss or damage which the Company may sustain by reason of the said bridge being destroyed or becoming unsafe for traffic, or being closed by the Engineer for the purposes of repair; nor shall the Company be liable to pay rent for any period during which it is unable to use the said bridge by reason of its being destroyed, rendered unsafe for traffic, or closed by the Engineer for the purposes of repair; and provided further that in the event of Parliament deciding at any time that the use of the said bridge for railway purposes shall be discontinued, it shall be lawful for the Governor to give to the Company two years' notice in writing of his intention to resume possession of the said bridge, and on the expiration of the said notice to resume possession thereof, and upon such resumption the Company's occupation of the said bridge shall cease and determine.

12. The said Company shall be bound to maintain the said railway when completed in a proper and efficient manner, so as to reasonably satisfy the Government, and to run not less than three trains per week in each direction for passengers and goods traffic, and if it fail to comply with the conditions laid down in this Section within a period of three months of being called upon to do so, it shall become liable to pay to the Government by way of liquidated damages a sum not exceeding £500 per month, the total amount of damages enforceable, however, not exceeding £5,000 in any one year, and such damages shall be recoverable against the Company in the ordinary way, and shall be chargeable, if not recovered, against the purchase price of the line, should the Government exercise its rights in manner hereinafter provided for under Section Twenty. It is hereby expressly stipulated that the payment hereinbefore provided for, shall be as and for liquidated damages sustained by the said Government, and shall not be considered to be in the nature of a penalty, or subject to the ordinary rules regarding the recovery of penalties for breaches of contract.

13. It shall be lawful for the Company to exercise all and singular the powers by this Act conferred, by or through an Agent in this Colony, duly appointed.

14. The said railway shall be constructed at the expense of the said Company provided that, upon the certificate of an officer to be appointed by the Government that the railway has been satisfactorily completed in accordance with the provisions of this Act, there shall be paid to the Company by the Government a sum of money calculated at the rate of £2,000 sterling per mile of railway completed as aforesaid: provided further that the Government shall from time to time, as the work progresses, and at its discretion, pay to the Company such portion of the said subsidy as the Government may deem proper.

15. A tariff or tariffs of passenger fares and goods in all classes shall be framed by the Company before commencing to work the said railway, provided firstly: no fare or rate shall exceed the corresponding fare or rate at present charged by the Company on the railway between Worcester and Ashton. Secondly: That as soon as the Railway authorised by this Act shall be in a position to pay a dividend of not less than five per cent. per annum on the capital expended in and about the construction of the said Railway, the said Company shall be obliged to introduce a reduced tariff or tariffs of passenger fares and goods in all classes, such tariff or tariffs being subject to the approval of the Government, and no alteration in any fare or rate shall be thereafter made without the approval of the Government. Thirdly: That the rates so far as affected by quantities shall give the maximum of benefit to the consignors of so small quantities as 10-ton lots, unless the consent of the Government be obtained for lower rates for larger quantities.

16. The said railway or any portion thereof shall not be opened for public passenger traffic until it shall have been certified to the Governor by the Engineer-in-Chief of the Cape Government Railways, that the same is sufficiently completed for the safe conveyance of passengers.

17. Upon the completion of the said railway or any portion thereof as aforesaid the Company shall enjoy all the privileges and be subject to all the conditions conferred by and contained in the Regulations of Railways Act, 1861, or any amendment thereof.

18. The provisions of Act 40 of 1889 shall apply *mutatis mutandis* to opening the gates or leaving the same unclosed or unfastened whether the same be done by the owners or occupiers of land adjoining the railway or by any other person.

19. The Company is hereby further authorised and empowered to construct, erect and work a telegraph and telephone or either of them along or near the line of railway subject to the provisions of the Electric Telegraphs Act of 1861.

20. Upon the exercise at any time by the Government of its rights and powers under the Seventeenth Sections of the Cape Central Railways Act, 1883, the Cape Central Railways Extension Act, 1894, and the New Cape Central Railway Extension Act of 1898, the Government shall have the right if so disposed to purchase from the Company on giving six months' notice to that effect and the Company shall be bound six months after receiving the said notice to sell to the Government the whole concern and undertaking authorised by this Act, including also all buildings and plots of land acquired by the Company and used in connection with the working of the said railways together with all the rolling stock, engines, carriages, plant, and every matter or thing belonging to or connected with the said railway, as also any telegraph or telephone and apparatus, wire, instruments and every matter or thing connected with the working thereof in possession of the Company under the Act upon such terms as may be agreed upon between the Government and the Company and failing such agreement at a price to be settled by arbitration; provided,

Firstly: That such price shall not be less than the actual cost of the work, but that the Arbitrators shall not be entitled to award as such actual cost, a sum in excess of £6,400 per mile (exclusive of Engines, Rolling Stock and Plant), and an amount equal to 20 per cent. of the said actual cost (after deducting from such actual cost the amount paid by the Government for subsidy, and in no case can the 20 per cent. be on a sum exceeding £4,400), to cover interest on the Capital expended during construction, and the cost of raising such capital, as well as profit to which the Company can be entitled.

Secondly: That from the price so ascertained shall be deducted any such amount as shall have been paid by the Government to the Company as subsidy under the provisions of this Act.

Thirdly: The price of the said Engines, Rolling Stock and plant shall, in the event of the Government and Company failing to agree, be also determined by arbitration.

21. For the purpose of any land taken or any arbitration under this Act, the provisions of the "Lands and Arbitrations Clauses Act, 1882," are hereby incorporated.

22. The Company shall, and may sue and be sued within this Colony in its corporate name, and the service of process upon the authorised Agent of the Company at his office or place of business in this Colony shall be good service of such process.

23. The Company shall, without prejudice to the rights of the Government under Section Twenty have the right of letting the said railway upon lease, and of selling and assigning its rights to the railway, and to the powers and privileges conferred by this Act.

24. This Act may be cited for all purposes as the "New Cape Central Railway Extension Act, 1903."

Colonial Secretary's Office,
Cape Town, Cape of Good Hope,
23rd April, 1903.

IN connection with the present prevalence of Bubonic Plague in various parts of the Colony, the following notice, issued by the Acting Medical Officer of Health for the Colony, relative to the symptoms of Plague in rats, mice and cats, and directions for disposing of the carcasses of these animals and for forwarding specimens for Bacteriological Examination, is published for general information.

NOEL JANISCH,
Under Colonial Secretary.

SYMPTOMS OF BUBONIC PLAGUE IN RATS, MICE AND CATS.

DIRECTIONS FOR DISPOSING OF THE CARCASSES OF THESE ANIMALS AND FOR FORWARDING SPECIMENS FOR BACTERIOLOGICAL EXAMINATION.

Rats and mice play a very important rôle in the dissemination of Bubonic Plague. Sickness and mortality from this disease usually occur amongst them for weeks or perhaps months before cases occur amongst the human population of the locality. It is, therefore, of the greatest importance that the cause of any unusual sickness or mortality among rats and mice should be promptly determined.

Rats or mice suffering from Plague may not show any symptoms recognisable by the naked eye. Sometimes, however they may be observed to go about in a stupid or dazed condition, having apparently lost their fear of man and being easily killed; sometimes sick rats may be seen dragging their hind quarters as if paralysed.

Cats occasionally contract Plague, the usual symptoms being swellings in the neck or underneath the lower jaw, loss of appetite, roughness and loss of lustre of the coat, and evident signs of illness.

GOVERNMENT NOTICES.

Any rat, mouse or cat so found and killed, or any such animal found dead without evident cause, such as poison or violence, should not be touched with the hands but should be taken up with tongs, two sticks, or other means, and placed in a wide-mouthed bottle, or in a glass or earthenware preserve jar, or other suitable receptacle which can be effectively closed up. No fluid or preservative of any kind should be introduced, as disinfectants are liable to kill any micro-organisms which may be present, and may thus render it difficult or impossible to definitely determine the presence or absence of Plague infection. The bottle, jar or other receptacle containing the carcass should be effectively corked or closed up and securely packed in a stout tin or wooden box and despatched by first Registered Post or other expeditious means, addressed to the Medical Officer of Health for the Colony, 33, Parliament Street, Cape Town.

In all such cases a letter should be at once despatched to the same address, stating where and when the carcass forwarded was found, and whether the animal was dead or sick at the time of discovery or capture; also whether other dead or sick rats, mice or cats have been found in the same locality, and, if so, how many and upon what dates, or whether offensive smells, possibly due to the decomposing carcasses of such animals under floors or elsewhere have been noticed.

When rats, mice, or cats are found dead or sick in considerable numbers, only a few specimens need be forwarded for bacteriological examination—three or four will, as a rule, suffice—and, in the case of dead animals, the freshest carcases should be selected for transmission; the remainder should not be removed until boiling water, carbolic acid, or Jeyes' Fluid Solution (one part of either to twenty parts of water); corrosive sublimate solution (one part to one thousand parts of water), or other strong disinfectant, has been plentifully thrown over their bodies; they should then be disposed of by burning. Disinfectants should also be freely sprinkled over and around the spot where the dead or sick animals have been found.

The carcasses of all rats and mice killed should also be burned. This may be done after removing them, under the precautions above mentioned, to some place adapted for the purpose, or they may be burnt without removal after covering them with straw or paper and pouring over them tar, paraffin, or other inflammable oil.

Acting Medical Officer of Health
for the Colony.

The Treasury.
Cape Town, 14th July, 1903.

HIS EXCELLENCY THE GOVERNOR, with the advice and consent of the Executive Council, has been pleased to approve of the following Regulations, framed by the East London Harbour Board, under the provisions of Act No. 36 of 1896.

HENRY DE SMIDT,
Assistant Treasurer.

In all cases in which the Board collects or delivers goods, it is upon the condition that all possible despatch is used by consignors or consignees (as the case may be), in loading or unloading wagons, etc., at their premises. When undue detention takes place, the carter is authorised to return without the goods he has been sent to collect, or with the goods he has tendered for delivery. In evry case, the consignor or consignee (as the case may be) shall be required to pay for the collection or delivery of the goods as though the service had been actually completed, and in the case of goods for delivery, the goods will remain at the goods shed or elsewhere, at the consignee's risk and expense.

When the Board is prepared to deliver goods, and the consignee intimates that he is not prepared to receive the same, the Board shall have the same right and be in the same position as though delivery of the said goods had been in fact tendered at the store or other proper place for delivery to the consignee, save that the cartage shall not be enforced.

The Board reserves the right to tender goods to consginees as soon as possible after arrival. Goods not received when tendered, or as to which the consignee shall have given such an intimation as aforesaid, or of which, owing to insufficiency of address, absence of consignees, or any other cause beyond the control of the Board, delivery cannot be effected, will be charged cartage or conveyance to goods shed or elsewhere, and for subsequent delivery, with storage, rent, and all other charges, according to tariff.

In the event of a consignee not receiving goods at the same rate per day as they are tendered for delivery, the Board reserves the right either to off-load in the open or to warehouse, at the sole risk and expense of consignee, including all the aforesaid charges, and at a demurrage or rent charge of 3d. per ton per day, and other charges according to tariff.

Undue detention shall be deemed to have taken place if the consignor or consignee does not load or unload within 15 minutes after tender of goods, or after carter is ready to receive, as the case may be.

91. In all cases in which the Harbour Board delivers goods to consignees by wagon, the delivery of the goods is to be considered complete, and the responsibility of the Board ceases when the wagons arrive at consignee's premises, the removal from the contractor's wagon, of goods intended to be at the consignee's risk and expense, as is also the removal from the consignor's premises into the contractor's wagon of goods intended to be conveyed to Buffalo Harbour. Receipts for goods delivered must be given immediately goods are taken from the wagon.

92. Consignments may, by arrangement with the Port Goods Manager, be broken up, for the purpose of delivery into portions of not less than one ton, provided the owner undertakes to pay all expenses incurred by the Board in the performance of such extra service.

Requests for the breaking up of a consignment or for its delivery at an address or addresses other than that given in the advice note, must be handed in before the goods are placed on the contractor's wagon for delivery, otherwise the contractor will deliver at the original address. The Board does not undertake to deliver goods at other than the original address.

Sub-Section 25 of Section VII., "Fines" to be amended as follows:

If the foregoing requirements be not complied with, a fine of 3d. per ton per diem will be charged in respect of the goods, whether such goods have been landed or not, except in the case of whole cargoes for one consignee, which may be cleared in such quantities as may suit the consignee, provided, however, that the entries and delivery, forwarding, or warehousing orders are handed in before the cargo to which they refer is landed. SYMPTOMS OF INFECTIOUS SWINE FEVER.

IN view of the appearance of Infectious Swine Fever in the Cape Peninsula and the Division of the Paarl, the symptoms of the disease are hereunder described for general information.

Any cases coming to the notice of the Public should be at once communicated to the Resident Magistrate of the District in which the disease has occurred.

W. HAMMOND TOOKE,
Acting Under-Secretary for Agriculture.

SYMPTOMS

The symptoms of swine fever are not very distinct or specially characteristic at the commencement of the attack, or even during its course, except in acute cases.

The affected animals present a dull and dejected appearance, they move about very quietly and manifest a strong tendency to huddle together. If there is loose soil, manure, or litter available they will crowd together in that.

Their appetite is diminished, and although many of them continue to take a fair amount of food, until they become very bad, they eat in a languid and indifferent manner. Their temperature rises from about 105 to 106 degrees Fahrenheit. In one the temperature registered was 108·4, but it was hurtled a out a good deal in catching it, which may have raised its temperature a little.

The breathing is slightly quickened, but the increase in the respirations depends upon the extent of the lung lesions. There is also a cough, which is very much aggravated when the pigs are driven about in the kraal. In many cases the cough is the first indication of infection. There is a hoarseness about the voice in advanced cases.

In an acute attack the pigs fall off in condition very rapidly and manifest a weakness about the hind quarters which makes them walk with a wobbling staggering gait. As the disease advances the listlessness increases and the hind quarters may become semi-paralysed.

The bowels are usually slightly constipated at the commencement, but diarrhœa generally supervenes towards the end.

The progress of the disease is very variable; in some acute cases it runs its course in two or three days, terminating fatally, while in others it may last much longer, but there has not been sufficient time to speak definitely of the course of the disease here yet.

In a number of cases there is more or less of a pink red discolouration of the skin. This does not usually occur until the disease is at its height, and in many cases there is no appearance of discolouration of the skin observable. When present the parts most affected are the under surface of the neck, the breast and the abdomen; the inside of the thighs and the ears. In acute cases these patches of discolouration extend and coalesce and assume a darker hue, the whole surface of the skin being more or less affected. In such cases the skin after death assumes a dark lived hue.

Calvinia on Friday, 17th July, 1903.
Namaqualand (at Springbokfontein), on Monday, 3rd August, 1903.
Clanwilliam, on Monday, 27th July, 1903.
Van Rhynsdorp, on Monday, 27th July, 1903.

The land will be let on Lease for any term not less than one year, and not exceeding five years, to the highest bidder.

The following are the General Conditions of all such Leases:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year, the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties: provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.

2. Government Land Surveyors employed in the survey of Crown or other lands, with their assistants and servants, shall have the right of access at any time to any part of the land leased for professional purposes, and the right of occupying any part of the land and grazing and watering their cattle or horses on all pastures and at all waters.

3. All roads running over the land leased may be used by the public as cattle thoroughfares (trekpaths) to the extent of 200 yards on each side of such road.

4. The public travelling shall have the right of outspanning along any road running over the land so leased.

5. The right of searching and mining for ores, metals, minerals, or precious stones is reserved to the Government or to any person authorised by it, save in so far as such right may limit the rights and privileges of the said Lessees in respect of precious stones and minerals, in manner provided by any Act in that behalf

6. The Government does not undertake to point out any beacons. The description of each Lot will be given on the day of Sale of the Leases, and the Lessee will thereupon be expected to find the extent leased by him.

7. The Lessee shall not be at liberty to cut down timber, trees, underwood, or brushwood, except such as shall be reasonably necessary for his own use, in and upon the lands leased by him.

8. In the event of the Lessee making improvements on the land and on the expiration of his lease the land being either sold or again leased, the value of the said improvements shall be refunded by the purchaser or new Lessee (as the case may be), not being the improver, in cash on the day of the auction.

9. Should such new purchaser or Lessee (as the case may be) fail to make the refund referred to in the preceding section, on the conclusion of the auction, the sale or lease shall be *ipso facto* null and void, and the land shall be immediately again offered for lease.

10. The value of the said improvements, if less than £50, shall not be recoverable in any way.

11. The Lessee shall be bound to notify the Civil Commissioner of the Division not less than three months before the date of the expiration of the lease of the nature and estimated value of the improvements; such statement to be accompanied by a certificate in support of the assessment, from the nearest resident Field-cornet after an inspection by him. The expenses of such Field-cornet at the Government tariff rates shall be paid by the Lessee before

12. In the event of no such report from the Lessee being his lease expires.
received, it will be taken for granted that no improvements of the value of £50 have been effected.

13. Should the land when put up to auction fail to find a purchaser or Lessee (as the case may be), the improvements thereon shall become the property of the Government without compensation.

14. The Lessee shall not transfer the Lease, nor sub-let the land or any portion of it, or any buildings or erections thereon, without the written sanction of the Government first obtained.

15. The Lessee shall wholly and absolutely forfeit his Lease, together with all improvements made, upon the breach of any condition binding him.

16. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive, or to cancel the Lease, as may seem to it equitable under the circumstances.

17. The occupation of land under this Lease shall not be held to be *bona fide* occupation under the provisions and for the purposes of Section 20 of Act No. 40 of 1895.

18. *The lessee shall not have the right to kill, catch, capture, hunt or wound, any wild ostriches, or take, remove, interfere with or disturb the eggs, except under a licence issued under Act 33 of 1889 or such similar Act.*

Other conditions may be declared on the day of Sale.

The Stamps required by Act No. 20 of 1884, to be affixed to the Contracts of Lease, will be furnished by the Government free of charge to the Lessee.

The Land will be let on Lease for any term not less than one year and not exceeding five years, to the highest bidder.

The following are the General Conditions of all such Leases:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties; provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.

2. The Government reserves the right of terminating the Lease should it be thought expedient to sell the land or other circumstances render it necessary or expedient at any time, at two months' notice; and in such case the proportion of paid rent for any unexpired portion of the current year shall be refunded to the Lessee.

Government Land Surveyors employed in the survey of Crown or other lands with their assistants and servants, shall have the right of access at any time to any part of the land leased for professional purposes, and the right of occupying any part of the land, and grazing and watering their cattle or horses on all pastures and at all waters.

The right of searching and mining for ores, metals, minerals, or precious stones, is reserved to the Government or to any person authorised by it, save in so far as such right may limit the rights and privileges of the said Lessee in respect of precious stones and minerals, in manner provided by any Act in that behalf.

7. The Government does not undertake to point out any beacons. The description of the Lot will be given on the day of Sale of the Leases, and the Lessee will thereupon be expected to find the extent leased by him.

13. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and, upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive or to cancel the lease as may seem to it equitable under the circumstances.

14. The occupation of land under this Lease shall not be held to be *bona fide* occupation under the provisions and for the purposes of Section 20 of Act No. 40 of 1895.

In the matter of the petition of GEORGE HENRY LEVEY, in his capacity as executor testamentary of the estate of the late MARY LEVEY, (born Stirk), of Grahamstown.

UPON reading the abovenamed petition lodged under "The Titles Registration and Derelict Lands Act, 1881;" setting forth that the said late Mary Levey inherited the whole of the estate of her late husband Charles Levey, by virtue of their joint will, dated the 16th of June 1883, and is therefore entitled to the following properties:—

1. Certain piece of land with all the buildings and erections thereon, situate near the Wesleyan Chapel, in Grahamstown, being a portion of the lot No. 48, in High Street, formerly the property of and occupied as a dwelling house by one William Neate, which land was purchased at public auction on the 1st of January 1834 by Joseph Levey, and by him sold to the said late Charles Levey on the 1st November, 1846, as shewn by the conditions of sale and receipts for the purchase price and transfer duty attached to the petition.
2. Certain piece of land being a section of the erf No. 48, in High Street, Grahamstown, adjoining the above, purchased on the 11th of September, 1843, from one John Ford by the said Joseph Levey, the right title and interest of whom was sold by public auction on the 15th December, 1874, to the said late Charles Levey, as appears from the conditions of sale and purchase price and transfer duty receipts also attached to the petition.

That the properties in question were from the time of their purchase in possession and occupation of the said late Joseph Levey and Charles Levey but were never transferred to them, and by reason of the lawful purchase thereof and uninterrupted possession for a period extending over thirty years, petitioner has acquired title thereto:

And praying for an order authorising the Registrar of Deeds to pass transfer thereof to petitioner in terms of the diagram of the same framed by the Surveyor Alex. C. Bailie on the 23rd November, 1885.

SYMPTOMS OF INFECTIOUS SWINE FEVER.

IN view of the appearance of Infectious Swine Fever in the Cape Peninsula and the Division of the Paarl, the symptoms of the disease are hereunder described for general information.

Any cases coming to the notice of the Public should be at once communicated to the Resident Magistrate of the District in which the disease has occurred.

W. HAMMOND TOOKE.
Acting Under-Secretary for Agriculture.

SYMPTOMS

The symptoms of swine fever are not very distinct or specially characteristic at the commencement of the attack, or even during its course, except in acute cases.

The affected animals present a dull and dejected appearance, they move about very quietly and manifest a strong tendency to huddle together. If there is loose soil, manure, or litter available they will crowd together in that.

Their appetite is diminished, and although many of them continue to take a fair amount of food, until they become very bad, they eat in a languid and indifferent manner. Their temperature rises from about 105 to 106 degrees Fahrenheit. In one the temperature registered was 108·4, but it was hustled about a good deal in catching it, which may have raised its temperature a little.

The breathing is slightly quickened, but the increase in the respirations depends upon the extent of the lung lesions There is also a cough, which is very much aggravated when the pigs are driven about in the kraal. In many cases the cough is the first indication of infection. There is a hoarseness about the voice in advanced cases.

In an acute attack the pigs fall off in condition very rapidly and manifest a weakness about the hind quarters which makes them walk with a wobbling staggering gait. As the disease advances the listlessness increases and the hind quarters may become semi-paralysed.

The bowels are usually slightly constipated at the commencement, but diarrhœa generally supervenes towards the end.

The progress of the disease is very variable; in some acute cases it runs its course in two or three days, terminating fatally, while in others it may last much longer, but there has not been sufficient time to speak definitely of the course of the disease here yet.

In a number of cases there is more or less of a pink red discolouration of the skin. This does not usually occur until the disease is at its height, and in many cases there is no appearance of discolouration of the skin observable. When present the parts most affected are the under surface of the neck, the breast and the abdomen; the inside of the thighs and the ears. In acute cases these patches of discolouration extend and coalesce and assume a darker hue, the whole surface of the skin being more or less affected. In such cases the skin after death assumes a dark livid hue

TEEKENEN VAN AANSTEKELIJKE ZWIJNEN KOORTS.

IN gevolge van het verschijn van Aanstekelijke Zwijnen Koorts in de Kaapsche Schiereiland en het Afdeeling van de Paarl, word de teekenen van de ziekte, hieronder beschreven voor algemeene kennisgving.

Eenig gevallen die onder de kennis van het Publiek komt moet dadelijk bekend gemaakt worden aan den Resident Magistraat van het Distrikt in welke de ziekte plaats gevonden heeft.

W. HAMMOND TOOKE,
Waarn. Onder Secretaris van Landbouw.

TEEKENEN.

De teekenen van zwijnen koorts zijn niet zeer helder of bijzonder kenmerkend bij het begin van den aanval, of even gedurende haar loop, tenzij in scherpe gevallen.

Het besmette dieren vertoonen een dof en neerslagtig voorkomen, zij loopen rond zeer stil en openbaar een sterk neiging om op een klomp tezamen te leggen. Indien daar losse grond, mest, of stroo dienstig is zullen zij daar in bij elkander liggen.

Hun eetlust is verminderd, en ofschoon velen van hen aanhouden om een tamelijk getal van voedsel te nemen, totdat zij zeer slecht wordt, eeten zij in een loomerig en onverschillig manier. Hun temperatuur stijgt van ongeveer 105 tot 106 graden Fahrenheit. In een werd de temperatuur geregistreerd 108.4, maar het werd veel gejaagd om het te vangen, die een weinig zijn temperatuur mag heeft laten stijgen.

De ademhaling is een weinig verhaastigd, maar het vermeerdering in het ademhaling hangt af van de groote van het long letsels. Daar is ook een hoest, die zeer vererger wordt indien de varken in het kraal rond gejaagd worden. In veel gevallen is de hoest het eerste bewijs van besmetting. Daar is een schorheid in de stem in bevorderde gevallen.

In een scherpe aanval nemen de varken af in conditie zeer snel en toont een zwakheid in de achter kwarten die ze laten loopen met een waggelend wankelende loop. Zooals de ziekte voortgaan neemt, de onlustigheid toe en de achter kwarten kunnen half lam worden.

De ingewanden zijn gewoonlijk verstopt bij het begin; maar diarrhoea neemt gewoonlijk de overhand op het einde.

Het vooruitgang van de ziekte is zeer veranderlijk; in sommige scherpe gevallen loopt ze haar koers in twee of drie dagen, doodelijk eindigende, terwijl in anderen mag het veel linger aanhouden, maar er was nog niet genoeg tijd om met zekerheid over het loop van de ziekte te spreken.

In een getal van gevallen zijn er min of meer een vleeschkleurig rood verandering van het huid. Dit gebeurt niet gewoonlijk voor dat de ziekte op haar hoogst is, en in veel gevallen zijn er geen voorkomen van velsverkleuring te zien. Wanneer tegenwoordig de deelen het meest aangedaan zijn het onderste gedeelte van de nek, de borst en het maag; het binnenste van de dijen en de ooren. In scherpe gevallen verspreidt die vlekken van kleuring, en vereenigd, en neemt een meer donker kleur, het geheele oppervlakte van het vel zijnde min of meer aangedaan. In zulk gevallen neemt het vel een donker vuurig kleur.

Department of Agriculture,
Cape Town, Cape of Good Hope,
16th July, 1903.

SYMPTOMS OF INFECTIOUS SWINE FEVER.

IN view of the appearance of Infectious Swine Fever in the Cape Peninsula and the Division of the Paarl, the symptoms of the disease are hereunder described for general information.

Any cases coming to the notice of the Public should be at once communicated to the Resident Magistrate of the District in which the disease has occurred.

W. HAMMOND TOOKE,
Acting Under-Secretary for Agriculture.

SYMPTOMS

The symptoms of swine fever are not very distinct or specially characteristic at the commencement of the attack, or even during its course, except in acute cases.

The affected animals present a dull and dejected appearance, they move about very quietly and manifest a strong tendency to huddle together. If there is loose soil, manure, or litter available they will crowd together in that.

Their appetite is diminished, and although many of them continue to take a fair amount of food, until they become very bad, they eat in a languid and indifferent manner. Their temperature rises from about 105 to 106 degrees Fahrenheit. In one the temperature registered was 108·4, but it was hustled about a good deal in catching it, which may have raised its temperature a little.

The breathing is slightly quickened, but the increase in the respirations depends upon the extent of the lung lesions There is also a cough, which is very much aggravated when the pigs are driven about in the kraal. In many cases the cough is the first indication of infection. There is a hoarseness about the voice in advanced cases.

In an acute attack the pigs fall off in condition very rapidly and manifest a weakness about the hind quarters which makes them walk with a wobbling staggering gait. As the disease advances the listlessness increases and the hind quarters may become semi-paralysed.

The bowels are usually slightly constipated at the commencement, but diarrhœa generally supervenes towards the end.

The progress of the disease is very variable; in some acute cases it runs its course in two or three days, terminating fatally, while in others it may last much longer, but there has not been sufficient time to speak definitely of the course of the disease here yet.

In a number of cases there is more or less of a pink red discolouration of the skin. This does not usually occur until the disease is at its height, and in many cases there is no appearance of discolouration of the skin observable. When present the parts most affected are the under surface of the neck, the breast and the abdomen; the inside of the thighs and the ears. In acute cases these patches of discolouration extend and coalesce and assume a darker hue, the whole surface of the skin being more or less affected, In such cases the skin after death assumes a dark lived hue.

This disinfectant which is being manufactured at the Digit works in Meltham, is identical with that which has been hitherto sold by Mr. William Pearson in Hamburg, Brussels, Milan and every part of the world, and which will continue to be sold everywhere except in British and French possessions under the Title of "CREOLIN-PEARSON."

Pearson's Antiseptic is made from the same materials, with the same care, and in the same manner as heretofore. The universal success with which it has been and is being used in its various forms, and the testimonials and reports (which will be sent post free on application) satisfy the proprietors that under its present description Pearson's Antiseptic will secure a still greater popularity.

The company hereby gives notice that against any persons infringing this trade mark, or trying to identify any products or compounds in any shape or form with those of the Company, or to pass them off as those of the Company, legal proceedings will at once be taken.

PEARSON'S ANTISEPTIC.—CREOLIN PEARSON.

Referring to the above Notice, we beg to state that disinfectants sold henceforth under the name of "Creolin" (name invented in 1886, but not registered by Mr. William Pearson in England) are in no way identical with the manufacture hitherto sold through us, and favorably known and appreciated under the name of "Creolin-Pearson."

Agents for "Pearson's Antiseptic."

TEEKENEN VAN AANSTEKELIJKE ZWIJNEN KOORTS.

IN gevolge van het verschijn van Aanstekelijke Zwijnen Koorts in de Kaapsche Schiereiland en het Afdeeling van de Paarl, word de teekenen van de ziekte, hier onder beschreven voor algemeene kennisgving.

Eenig gevallen die onder de kennis van het Publiek komt moet dadelijk bekend gemaakt worden aan den Resident Magistraat van het Distrikt in welke de ziekte plaats gevonden heeft.

W. HAMMOND TOOKE,
Waarn. Onder Secretaris van Landbouw.

TEEKENEN.

De teekenen van zwijnen koorts zijn niet zeer helder of bijzonder kenmerkend bij het begin van den aanval, of even gedurende haar loop, tenzij in scherpe gevallen.

Het besmette dieren vertoonen een dof en neerslagtig voorkomen, zij loopen rond zeer stil en openbaar een sterk neiging om op een klomp tezamen te leggen. Indien daar losse grond, mest, of stroo dienstig is zullen zij daar in bij elkander liggen.

Hun eetlust is verminderd, en ofschoon velen van hen aanhouden om een tamelijk getal van voedsel te nemen, totdat zij zeer slecht wordt, eeten zij in een loomerig en onverschillig manier. Hun temperatuur stijgt van ongeveer 105 tot 106 graden Fahrenheit. In een werd de temperatuur geregistreerd 108.4, maar het werd veel gejaagd om het te vangen, die een weinig zijn temperatuur mag heeft laten stijgen.

De ademhaling is een weinig verhaastigd, maar het vermeerdering in het ademhaling hangt af van de groote van het long letsels. Daar is ook een hoest, die zeer verergerd wordt indien de varken in het kraal rond gejaagd worden. In veel gevallen is de hoest het eerste bewijs van besmetting. Daar is een schorheid in de stem in bevorderde gevallen.

In een scherpe aanval nemen de varken af in conditie zeer snel en toont een zwakheid in de achter kwarten die ze laten loopen met een waggelend wankelende loop. Zooals de ziekte voortgaan neemt, de onlustigheid toe en de achter kwarten kunnen half lam worden.

De ingewanden zijn gewoonlijk verstopt bij het begin; maar diarrhoea neemt gewoonlijk de overhand op het einde.

Het vooruitgang van de ziekte is zeer veranderlijk; in sommige scherpe gevallen loopt ze haar koers in twee of drie dagen, doodelijk eindigende, terwijl in anderen mag het veel langer aanhouden, maar er was nog niet genoeg tijd om met zekerheid over het loop van de ziekte te spre ken.

In een getal van gevallen zijn er min of meer een vleeschkleurig rood verandering van het huid. Dit gebeurt niet gewoonlijk voor dat de ziekte op haar hoogst is, en in veel gevallen zijn er geen voorkomen van velsverkleuring te zien. Wanneer tegenwoordig de deelen het meest aangedaan zijn het onderste gedeelte van de nek, de borst en het maag; het binnenste van de dijen en de ooren. In scherpe gevallen verspreidt die vlekken van kleuring, en vereenigd, en neemt een meer donker kleur, het geheele oppervlakte van het vel zijnde min of meer aangedaan. In zulk gevallen neemt het vel een donker vuurig kleur.

10. Every person entitled to vote as aforesaid who shall be the proprietor or lessee of more than one erf in any such location shall be entitled to a number of votes in the election of members of the Board of Management for that location, equal to the number of the erven possessed or leased by him.

11. No person who shall be the lessee of a portion of an erf only shall be entitled to be registered as a voter under this Act: but the owner of the erf of which a portion shall be leased shall not, by reason of such lease, be disqualified from being registered.

12. In case the whole of an erf shall be leased under such a lease as in this Act is mentioned, the lessee, and not the owner, shall be entitled to have his name inserted in the said list, and to vote; but in all other cases the owner, and not the lessee, shall be so entitled.

13. If two or more persons shall be joint proprietors or lessees of any erf, such one of them as may be chosen or deputed for that purpose by the other or others shall appear and vote in respect of such erf; and in case such persons cannot agree, the person to vote shall be determined by lot.

14. It shall be lawful for any such registered voter enrolled as aforesaid, present at such meeting, to nominate some person who shall be either the owner of a whole erf within the said limits, or the lessee of such erf under a written lease of not less than five years, and every such nomination shall, before it is submitted to the meeting, be seconded by some other such registered voter present. From the persons so nominated and seconded such meeting shall elect three who shall form and be called the "Board of Management" for the community resident within the said limits. In case three persons only shall be so nominated and seconded, such three persons shall be declared to be duly elected as such Board of Management; but in case more than three persons shall be so nominated and seconded, the officer presiding at such election shall then and there proceed to take a poll of the registered voters present enrolled as aforesaid (either by ballot or by open voting, as he may decide), and such three persons duly nominated and seconded as shall gain the greatest number of votes at such poll shall then be declared to be duly elected, and shall form the Board of Management of the community: Provided that if two or more persons who have received the greatest number of votes, and who cannot be both or all elected shall each have received the same number of votes, then the question between such persons shall be decided by lot, to be drawn in the presence of the officer presiding at such election: and provided, further, that every registered voter shall for every erf for which he shall appear registered on the voters' list aforesaid be entitled to give one vote for each of any number of candidates not to exceed the number to be elected.

15. The Resident Magistrate shall, as soon as may be after such election, publish in the *Government Gazette* the names of the persons so elected, and such persons shall form the board of Management of the community until a new board shall be elected in like manner as in the last preceding section provided.

16. In case any member of the said Board shall resign his seat on the board, shall leave the limits of the community for the space of three calendar months, or shall fail to attend three consecutive meetings of the Board, or shall become insolvent or assign his estate for the benefit of his creditors, or die or be incapacitated from acting by reason of mental or bodily disease, such member's seat shall be *ipso facto* vacated, and it shall be the duty of the remaining members of the said Board to

report such vacancy to the Resident Magistrate, who shall forthwith call a meeting of the registered voters aforesaid for the purpose of electing another member of the said board, and the proceedings at such meeting shall *mutatis mutandis* be the same as those provided for in the fourteenth section of this Act.

17. If the voters aforesaid shall at any time fail or neglect or refuse to elect such board of management, or to elect a sufficient number of members to form such board, it shall be lawful for the Governor by proclamation to appoint from among the persons qualified to be elected to sit upon such board as aforesaid, three members to constitute such board, or such member or members as shall, together with any members or member duly elected as hereinbefore provided, make up the full number of members of such board; and any board or members so appointed shall be invested with the same powers and be in all respects in the same position as if such board or such members had been duly elected under the provisions of this Act.

18. Such Board of Management shall meet as soon as practicable after election, and shall continue to meet from time to time, not being less than once a month, at such time and place as they shall determine.

19. At the first meeting of the said board the members shall elect a chairman, who shall preside at the meetings of the board (of which two members shall form a quorum) if he be present, and in case of his absence, the other two members shall either agree or decide by lot which of them shall, at and with respect to such meeting, perform the duties of chairman.

20. The proceedings at the meetings of the said Board shall be public, and all questions coming before the meeting shall be decided by the majority of votes of the members present, which votes shall be given openly. But in case two members only shall be present at any meeting and they shall not agree in the decision of any question before them, such question shall stand over until there shall be a full meeting of the said Board to decide the same.

21. Minutes of the proceedings of every meeting of such Board shall be regularly entered in a book to be kept for that purpose, and shall be read and confirmed at the next succeeding meeting and signed by the person presiding thereat. All such minutes shall be deemed and taken to be original minutes, and such book shall and may be produced and read as *prima facie* evidence of all the proceedings therein recorded, in any court, civil or criminal.

22. The said Board of Management shall appoint, during pleasure, such fit and proper officers as it shall find necessary for carrying out the purposes of this Act, and shall pay to them such salaries and assign to them such duties as they may think fit.

23. It shall be lawful for the Divisional Council of the division in which any such community is situated, and such Divisional Council is hereby required, upon the application in writing of the chairman of the Board of Management, to levy a rate upon all the rateable property within the limits of such community, but no such rate shall exceed threepence in the pound sterling for any one year; and such rate shall be levied and collected by the said Divisional Council in all respects as if it were a rate lawfully levied by such Council for its own purposes; and the proceeds of the rate so levied after deducting ten per cent. for the expenses of levying and collecting such rate shall be paid over as soon as may be after collection thereof at the end of each month by such Council to the chairman of the said Board of Management, who shall grant a receipt for the same; and the amount so received shall be held by the said Board of Management and devoted to the carrying out of the purposes of this Act.

24. Every Board of Management shall cause proper accounts to be kept of all moneys received and expended under the provisions of this Act, which accounts shall be open, at all reasonable times, to the inspection of all persons interested therein: and at the end of his term of office the chairman of the board shall render to the resident magistrate of the district a statement of the accounts of the board, which statement shall be certified as correct by a solemn declaration of such chairman made before a justice of the peace; and all the assets, accounts, books, and other property of the said board shall be handed over to the new board as soon as such new board shall have been elected.

25. No member of any Board of Management shall receive any salary, fee, or reward of any kind for the performance of the duties of his office, and any member contravening this provision shall, *ipso facto*, vacate his seat on such board; and no member of any board shall contract with such board to perform any of the services which such board may require to be done, and any member so contracting shall, *ipso facto*, vacate his seat on such board; but nothing herein contained shall be construed so as to prevent any member of the board from gratuitously rendering any service, or doing any work which the said board may require to be done.

26. Notwithstanding anything to the contrary in any law it shall not be lawful for any person to shoot at, hunt, pursue, chase or capture any "game" within the

meaning of "The Game Law Amendment Act, 1886," as amended by "The Game Law Amendment Act, 1891," on any commonage under the control or management of any Village Management Board within the Division of Stockenstrom, unless, in addition to the requirements provided in the said Acts, to obtain the written consent of two members of such Board, and any person contravening the provisions of this section shall be liable to the penalties provided by the seventh section of "The Game Law Amendment Act, 1886."

27. It shall be the duty of the chairman of every Village Management Board within the said division to convene a special meeting of persons entitled and qualified to vote for members of such board upon receiving a requisition signed by not less than two-thirds of such persons, stating the object of such meeting, and for the purpose of convening such meeting such chairman shall give notice thereof of not less than fourteen days, and shall affix such notice to some permanent place within the limits of such location, or on the door of the place of meeting of such Board, and such notice shall specify the time, place and object of such meeting.

28. Every person who shall be found without lawful excuse wandering over any commonage or loitering on any erf within any location in the said Division of Stockenstrom without the permission of a member of the Village Management Board of such sub-division (proof of which excuse or permission shall be on such person) shall upon conviction thereof be liable to the penalties prescribed by the fourth section of "The Vagrancy Act, 1879."

29. Any member of a Board of Management in the Division of Stockenstrom is hereby empowered, within the area for which he has been elected, to impound or cause to be impounded any live-stock trespassing on the commonage within such area.

30. It shall and may be lawful for every Board of Management to cause all public streets, roads and places within the limits before-mentioned to be at all times kept in good and sufficient order and repair, and to make all necessary furrows, watercourses, drains, sewers, culverts, and bridges within the said limits; and to construct such works and take such lawful measures as to them shall appear necessary for the purpose of providing a proper supply of water for the inhabitants residing within such limits; and it shall further be lawful for such board to frame such regulations as may be required in order to prevent the obstruction of any road, street, highway, or other public place, within the said limits, or to prevent vehicles from being kept in any such road, street or other public place for an unreasonable time; or to prevent any inconvenience to the public from animals being allowed to wander about within such limits; or to provide for the isolation of persons or animals suffering from any dangerous contagious disease, and for the prevention or suppression of such disease; or to provide for the removal and disposal of all night soil, stable litter, excrement, and other refuse and filth from public and private premises and from all streets, roads, and thoroughfares; or to prevent the dangerous or mischievous use of gunpowder or other combustibles within the said limits; or to prevent the making of noises in any street or public place with trumpets or drums, or whips, or by other means; or to prevent or impose restrictions upon the keeping of ferocious or troublesome dogs or other animals within the said limits; or to prevent any building or other structure within the said limits from being kept in a condition dangerous to the public or to the personal safety of any individual; or to provide against the pollution of any water which the inhabitants living within the said limits have a right to use; or to provide for the distribution of water among such inhabitants for purposes of irrigation or for domestic use or otherwise; or to provide for the prevention and extinguishing of fires within such limits; or to provide for the granting of licences or permits for the making of bricks, or the digging or getting of clay or gravel, or the quarrying of stone, or the cutting of firewood, brushwood, or grass upon the common lands, and for the payment of reasonable fees or dues for such licences or permits; or to provide for the management and protection of all common pasture lands and the preservation of all vegetation thereon, and the fixing of the number and description of livestock any inhabitant shall be allowed to keep and depasture thereon or on any part thereof; or to provide for the granting of temporary grazing rights over the said lands to travellers or carriers or other persons frequenting or passing through the said locality, and for the payment of reasonable dues in consideration thereof; or to provide for the impounding of all animals trespassing on such common lands; or to prevent damage to any property to which the said inhabitants may have a common right, or to recover compensation for such damage; or to provide for the prevention, removal, or abatement of all nuisances within the said limits which may tend either to injure the health, destroy the comfort, or affect the rights of the said inhabitants at large.

31. All regulations framed under the provisions of this Act shall be submitted to the Governor for approval or alteration or amendment, and shall together with such

alterations or amendments as the Governor may have seen fit to make therein be published in the *Government Gazette*, and shall thenceforth have the force of law: Provided, however, that it shall be competent for any such board from time to time to alter or amend any regulations made and published as aforesaid and thereupon such amended regulations shall be transmitted to the Governor, who may deal with the same in manner hereinbefore in this section mentioned, and such amended regulations after the same shall have been published in the *Government Gazette*, shall also have the force of law.

32. Any person contravening any of the regulations made and published as in the two last preceding sections mentioned shall be liable to pay a fine not exceeding five pounds or to be imprisoned with or without hard labour for a period not exceeding thirty days, unless such fine be sooner paid; and all prosecutions for any such contravention may be instituted in the court of the Resident Magistrate of the district in which the offence was committed, or before any special Justice of the Peace in respect of any contravention within his jurisdiction: provided that no fine imposed, and no term of imprisonment awarded by any special justice, shall exceed the amount and term respectively mentioned in the twenty-second section of Act No. 40 of 1882. And all fines which shall be recovered by means of any such prosecution, together with all moneys which shall become payable under and by virtue of the regulations duly framed under the authority of this Act, shall be paid to the said Board of Management and be applied by them in carrying out the purposes of this Act.

33. It shall be the duty of every Board of Management to enforce all regulations made under the authority of this Act, and to prosecute all breaches and contraventions of the same, and to use all diligence in carrying out the several provisions and objects of this Act generally.

34. It shall be lawful for every Board of Management to enter into contracts, and to employ labour for the purpose of carrying out any work required to be done, or for doing anything which such board is by the provisions of this Act authorised to undertake or to do.

35. In any action or suit, civil or criminal, which may be brought by or against any such board as aforesaid, it shall be sufficient to describe such board as "The Board of Management of————," without mentioning the names of any of the members comprising such board.

36. All necessary costs, charges, and expenses incurred in carrying out the provisions of this Act, and the regulations made thereunder, may be lawfully paid out of any of the funds which shall come into the possession of the Board of Management.

37. As often as any town, village or community to which this Act has been made applicable (by any such proclamation as in the second section mentioned) shall become a Municipality, then this Act and any regulations made in pursuance thereof shall continue to apply only until the first set of municipal regulations for such Municipality shall be promulgated and no longer.

GOVERNMENT NOTICES.

[681] [1903.]

Prime Minister's Office,
Cape Town, Cape of Good Hope,
28th July, 1903.

THE following correspondence received from the Agent-General for the Cape Colony regarding Family BIBLES, lost by the Boers during the late War in South Africa is published for general information.

SYDNEY COWPER,
Secretary to the Prime Minister.

079/373. (A.G.I.)

War Office,
London, S.W.
8th July, 1903.

Sir,—I am directed by the Secretary of State for War to forward you the attached copy of a circular letter which has been issued by this Department regarding Family BIBLES, lost by the Boers during the late War in South Africa.

Mr. Brodrick would be glad if the desire expressed therein might be given as much publicity as possible.

I am, etc.,

GUY FLEETWOOD WILSON.

The Agent General for Cape Colony,
98, Victoria Street, S.W.

079/373. (A.G.I.A.)

War Office,
London, S.W.
June, 1903.

Sir,—I am directed by the Commander-in-Chief to inform you that it has been brought to his notice that, on the conclusion of the recent War in South Africa, a large number of Boer families found, on returning to their farms, that their family Bibles had disappeared. It appears that the Boer inhabitants of the South African Colonies set great store by their family Bibles which often contain family records of some antiquity and even in some cases are the only repository of such records in consequence of the unavoidable destruction of church registers.

Lord Roberts feels sure that if any persons have in their possession any of these Bibles they will willingly return them when they learn how they are valued by their former possessors and he thinks it unnecessary to emphasise how much such a kindly act would be appreciated by our new fellow subjects.

He therefore wishes it to be known as widely as possible among all officers and soldiers who are now serving or have been retired, discharged or relegated to the Reserve, whether they belong or belonged to the Regular Army, Auxiliary or Colonial Corps and also among any of their friends, to whom they may have given them as relics, that Mr. W. H. Alexander of 12 Bishopsgate Without, London, E.C., has kindly consented to receive and despatch to their owners any such Bibles which may have been taken from Boer Farms.

He feels sure that the above facts and the knowledge that it is his wish that all such relics should find their way back to their former owners will be sufficient to ensure that their present owners, however much they may value them, will readily part with them for this purpose,

I am, etc.,

A. WYNN, D.A.G.

The General Officer Commanding.

Classification and Nature of Instruction.

Digitized by Google

Recruits.

(a) Recruits will be required to attend two nights in each week to be instructed in the elementary principles of Squad Drill, Carbine Drill, and Standing Gun Drill, fitting of harness being substituted for Gun Drill in the case of Drivers and Trumpet Instruction for Trumpeters; the parade is to be at least of one hour's duration. At the end of their first quarter they will be examined by the Adjutant; if found qualified, they will be granted their certificates (see Appendix IIID), and promoted into the Second Class. Should they fail to pass or be absent from the examination, they will be required to remain in the Recruit's Class for another quarter. A second failure or absence will entail their removal from the Corps. Should it be observed at any time during the quarter that a Recruit is acquainted with his duties, he may be at once examined, and, if successful in obtaining his certificate, be promoted into the Second Class, but such promotion must bear date from the first or middle day of the month.

2nd Class.

(b) Members in the Second Class will be required to attend drills each month as under; the duration of such drills must not be less than two hours:--

P.A.O. Cape Field Artillery { 1st Saturday afternoon / 3rd Friday evening

Cape Garrison Artillery ... ... { 1st and 3rd Saturday afternoons.

They will remain in this Class until they have obtained their First Certificate, when they will be promoted into the First Class. If they should fail to obtain their Certificate, they will be re-examined within six months; a second failure will entail their removal from the Corps.

1st Class.

(c) Members in the First Class will be required to attend for drill or practice on the 1st Saturday afternoon in each month as described in the preceding paragraph. They will be required annually to obtain their Certificate, and to be subject to the conditions laid down for the Second Class.

Non-Commissioned Officers may be fit for a Lower Grade.

79. Non-Commissioned Officers who fail in obtaining their Certificates on re-examination will not be obliged to quit the Corps if the Examining Officer certifies that they are competent to perform the duties of a lower grade: in which case they will be reduced to that rank, and draw the ordinary pay for that rank for the previous year. The Officer Commanding may, in addition, cause N.C.O.'s to be examined from time to time as to their qualifications for the performance of their duties.

Attendance at Easter Camp and First Monday in October.

80. All members, except recruits, whose attendance will be voluntary, will be required to attend a camp to be held annually at Easter, during which all Certificates will be granted for the current year ending 30th April, with the exception of those who are granted the Certificate mentioned in Appendix IIID. All members, except the Master Tailor and Recruits, will also be required to attend on the first Monday in October. On this occasion those who did not obtain their Certificates at Easter, either through failure or non-attendance from any cause, will be examined, and, if successful, will be granted Certificates but only up to the previous 30th April. If a member who was absent from the Easter Camp subsequently gains his certificate in October, he will be considered as having been in the First Class from the 1st May, and therefore entitled to the Special Pay under 172B, for the extra parades he may have attended from 1st May to the first Monday in October.

Drivers and Artificers.

81. Men who may be enrolled as Drivers or Artificers will go through the Recruit Class. When Drivers are promoted into the Second Class they will be required to attend all mounted parades, which are held on days for which attendance is compulsory for other ranks of that Class. On dismounted parades their instruction will take the form of stripping, fitting of harness, and any other duties connected with a Driver's work. In these duties they will be examined for their Certificate, and when promoted into the First Class will attend on the occasions specified for other members of that Class.

Artificers, who must be qualified men in their respective trades, after they have been promoted into the Second Class, will attend all parades as laid down for First and Second Class, and be required to gain the usual Gunner's Certificate, unless duties can be allotted to them directly bearing on their respective trades.

Voluntary Evening and Church Parades.

82. Drills will be held in the Drill Halls during the evenings for all classes, but they are not compulsory (except as laid down in paragraphs 78 and 83), and only intended for the purpose of giving extra instruction. No record of them will be kept in the Attendance Register. This will also apply to Church parades.

Commanding Officer's Parade.

83. All members will be required to attend once in each quarter a Commanding Officer's parade. These parades should not be held on the days laid down in paragraph 78B.

The Staff Sergeant Farrier, Sergeant Wheeler, Sergeant Collar Maker, Shoeing Smiths, Wheelers, and Collar Makers must be competent to perform all the duties of their trades when required to do so, and must obtain the annual Certificate (Appendix IIID). The Sergeant Collar maker and Collar Makers will be required to attend to the fitting of all harness and appointments free of charge, and to execute all alterations and repairs, for which they will receive extra payment. Vouchers supporting these charges will be submitted for payment to the Colonial Military Secretary.

Carbine Ammunition.

107. 100 rounds Ball and 50 rounds Blank Ammunition may be demanded annually per member; 30 rounds of Morris Tube Ammunition may be drawn in lieu of 50 rounds of Blank. All ammunition remaining on charge on the 30th April will be deducted from the next year's supply.

Precautions at Carbine Practice.

108. In order to provide for the safety of the public, indiscriminate private practice at ranges will not be permitted; all practice will be so regulated as to ensure the presence of an Officer or Non-Commissioned Officer on all occasions when firing is going on. The Officer or Non-Commissioned Officer in charge of a firing party will be held responsible for enforcing strict regularity and discipline.

Trumpeter to Attend at Carbine Practice or, in his absence, a Whistle to be Used.

109. When Corps are carrying out carbine practice a Trumpeter (if his services can be secured) will be present. Should a Trumpeter not be available, the regulation whistle, carried by all Officers, must be used to attract the attention of the Marker.

Experienced Men to Act as Markers.

110. None but experienced men will be allowed to act as markers. The employment of boys in that capacity is prohibited.

Arms to be Examined before Quitting Range.

111. At the conclusion of Carbine practice, the Officers or Non-Commissioned Officers in charge of squads will examine arms before permitting any member to quit the firing point, and unexpended ammunition will be collected.

Registers to be Kept.

112. Registers are invariably to be kept on Colonial Forces Form No. 9, showing the expenditure of the whole of the Government allowance of ammunition.

Easter Camp.

113. The Camp referred to in paragraph 80 will commence on the Thursday night before Good Friday in each year, and will last until the evening of Easter Monday. All ranks, except Recruits (who may attend voluntarily), will be obliged to attend for the full period. Any member absent for a day or any portion of a day, will in addition to the stoppage, as provided in paragraph 182, be deprived of one day's Camp pay.

Servants.

114. The following is the scale of Servants allowed to Officers:—

1 for each Field Officer.
1 for every mounted Officer (other than Field Officers) when horses are taken.
1 for every three such Officers when without their horses.
1 for every three dismounted Officers.

Camp Duties to be Performed by Volunteers.

115. Corps will perform fatigue, cooking, and other camp duties. One of the chief objects in allowing Volunteers to attend Military Camps is that they should learn the duties connected with the details of Encampments, such as constructing kitchens, latrines, etc., filling in ground, cutting up and issuing rations, etc., and it is, therefore desirable that such work should be performed by the men themselves.

Advance Parties.

116. Commanding Officers will detail an advance party to precede their Corps to Camp, in order to carry out arrangements regarding laying out of Camp, Equipment Rations, etc. An allowance of one day's camp pay will be paid for each day to members so employed.

To Assemble when Called Out for Active or Military Service. Absentees to be deemed Deserters.

117. Every member belonging to a Corps called out for Active or Military Service shall be bound to assemble as the Governor may direct, and march according to orders, within the area in which they are liable for service. If any such Officer or Volunteer, not incapacitated for Military Service by infirmity (duly certified by a Medical Officer), refuses or neglects to assemble or march, he shall be deemed to be a deserter.

Subject to Part II, when being Trained with Military Force, or when Called Out to Aid Civil Power, etc.

118. Volunteers become subject to Part II of the Colonial Forces Act when being trained or exercised with any portion of His Majesty's Regular Forces or of the Permanent Colonial Forces, or when assembled in Camp of Instruction or Exercise. Also when called out for Active or Military Service or to aid the Civil Power in the protection of life and property. Commanding Officers should invariably caution those under their command of this liability before they enter upon any duty which renders them liable to it; the omission of the Commanding Officer to do so will, however, in no way exonerate a Volunteer from the provisions of the Colonial Forces Act.

Dismissal.

119. When not on actual Military service, the Commanding Officer may dismiss and strike off the Muster Roll for misconduct, or for any sufficient cause, any Non-Commissioned Officer or man, the existence and sufficiency of such cause shall be judged by the Commanding Officer; but no sentence of dismissal shall be carried into effect until it has been submitted to, and confirmed by the Commandant-General; nothing herein, however, shall prevent the Governor from signifying his pleasure in such manner, and giving such directions, with respect to any case of dismissal, as to him may appear just and proper.

Discharge.

120. A Commanding Officer may also, when his Corps is not on Actual Military Service, discharge any member and strike him off the Muster Roll for sufficient cause, the existence and sufficiency of which shall be judged by the Commanding Officer.

Return of Arms, etc., on Dismissal or Discharge.

121. A Volunteer so dismissed or discharged shall, nevertheless, be liable to deliver up in good order, fair wear and tear only excepted, all arms, clothing, and appointments issued to him, and pay all money due by him for loss of, or damage to, his clothing, arms, or accoutrements.

Dismissal to be Notified in Regimental Orders, but not in the Public Newspapers.

122. When a Volunteer has been dismissed or discharged for an offence committed by him, a notification of the fact, with the cause of dismissal or discharge, will be inserted in Corps Orders. In the copy of Corps Orders sent to the press for publication reference to the cause of dismissal or discharge should be omitted, and the notification is only to appear once.

Right to Appeal after Dismissal.

123. A Volunteer dismissed by his Commanding Officer shall have the right to appeal to the Commandant-General, through the Colonial Military Secretary.

All Orders to be obeyed without hesitation. If aggrieved can make Complaint Afterwards.

124. An order given by a superior Officer must be obeyed without hesitation, and no altercation as to the propriety or justice of such an order is permitted. Any individual thinking himself aggrieved can make his complaint after he has obeyed the order.

Officers and N.C.O.'s are to Obey all Orders, and to see that they are obeyed by those under them.

125. Officers and Non-Commissioned Officers are expected not only to obey all orders themselves, but to see that they are obeyed by those under them. They must be firm and decided in giving or carrying out orders, yet temperate in their manners, and always kind and considerate to their juniors.

When in Uniform to Salute Regular and Volunteer Officers in Uniform.

126. Volunteers in Uniform shall salute all Officers of the Regular, Permanent, and Volunteer Force in uniform.

Suspension of Officers. When Suspended for Military Offences Volunteers to Deliver up Arms, etc.

127. The Commandant-General, Colonial Forces, has the power to suspend any Volunteer Officer, and any Volunteer may for any military offence be suspended by his Commanding Officer from all military duty and privileges, and members so suspended will, on demand, deliver up their arms, accoutrements, uniforms, or property belonging to the Government to such person as the Commanding Officer may direct.

Any appeal against the decision of the Battery Commander in the (P.A.O.) Cape Field Artillery and of the Captain in the Cape Garrison Artillery will be made through them to the Commanding Officer; any further appeal must be made through both these Officers to the Commanding Officer of the Corps, who will deal with the case, or, if he thinks necessary, forward it to the Colonial Military Secretary for disposal.

Not to Attend Political Meetings in Uniform.

130. Members of Corps will not individually or collectively attend political meetings, or join in any public political discussion or demonstration, in uniform.

No Political Matter to be Introduced in Speeches made at a Corps Meeting. Senior Officer present can Dissolve Meeting.

131. It is to be understood that if at any meeting of Volunteers in uniform, political matter of a controversial nature is introduced into any speech delivered to the meeting, it will be the duty of the Senior Officer present to take steps to prevent a breach of the above regulation. It will probably be sufficient to call the attention of the speaker to the position in which the meeting is placed by the nature of his address; but if this course does not avail, it will be the duty of the Senior Officer to dissolve the meeting and to direct the Officers and men present in uniform to withdraw.

Standing Orders not to be Altered.

132. An Officer in temporary command is not to issue any standing orders or alter those promulgated by the permanent Commanding Officer without reference to him or to the Colonial Military Secretary; and the permanent Commanding Officer of a Corps, when absent from it, is not to issue Regimental or Corps orders.
